

BRAND GUIDE / WHITE ROSE / 2026

WHITE ROSE

Software engineering consultancy for technical direction, architecture review, hands-on development, and DevSecOps.

WHITEROSE.NO

BJARNE@OEVER.LI

COMPANY

SOFTWARE ENGINEERING CONSULTANCY.

White Rose reviews software systems, plans technical work, clarifies engineering decisions, and delivers hands-on development with DevSecOps.

SERVICES

01

TECHNICAL DIRECTION

Help decide what to build, what to simplify, and what to avoid.

02

ARCHITECTURE REVIEW

Review systems, codebases, and infrastructure.

03

DEVELOPMENT

Build features, integrations, backend services, and internal tooling.

04

DEVSECOPS

Support deployment, infrastructure, automation, reliability, and security workflows.

WORKING MODEL

Understand the system.

Explain the tradeoffs.

Help decide what to build, simplify, or avoid.

Support implementation when needed.

Keep recommendations clear and practical.

DIRECTION

BLACK, WHITE, SHARP, MINIMAL.

The visual direction uses strong typography, clear spacing, thin borders, and the White Rose logo as the main visual mark.

Avoid gradients, color accents, soft decorative elements, stock imagery, and unnecessary effects.

COLOR

BLACK	WHITE	MUTED	SURFACE
#000000	#ffffff	#9a9a9a	#f4f4f4

TYPOGRAPHY

DISPLAY

Use condensed, hard, uppercase headings. Keep headings short.

BODY

Use plain monospaced or neutral sans text. Keep copy direct and factual.

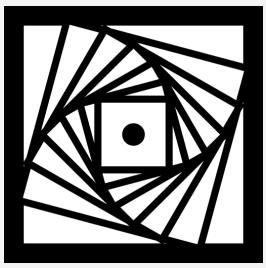

NAME

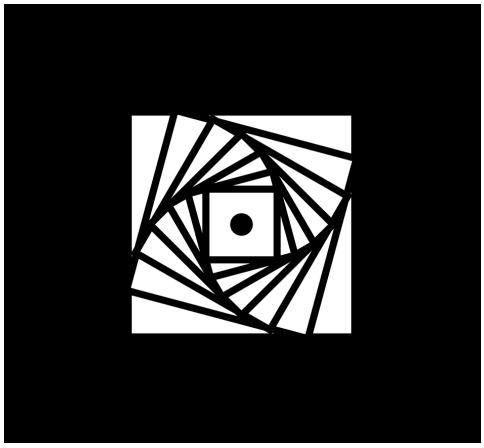

USE WHITE ROSE.

Use `White Rose` as the primary written name. `Whiterose` can be used as a secondary styling when needed.

The name should be tied to clear software engineering work, not floral or decorative language.

LOGO

Use the existing PNG logo assets. Keep the mark square and preserve equal padding on all sides.

RULES

- Use PNG assets only.
- Do not stretch, skew, rotate, recolor, or crop the logo tighter.
- Do not add shadows, glows, outlines, or effects.
- Do not place the logo over photography or patterns.
- Keep at least one quarter of the logo width as clear space around the mark.
